

We invite you to join the new HAI COVID Clean Program. We created this program to provide you, our members, with a means to demonstrate your commitment to the health and safety of your customers and crew.

By taking the [COVID Clean Pledge](#), you can show your commitment in a visible and reassuring way. HAI will assist participating member organizations by providing them with highly visible and shareable promotional material, as well as support through social media.

The COVID Clean Program provides a list of recommended COVID cleaning standards that participating companies must agree to when signing the pledge. These steps include disinfecting the helicopter between flights and conducting a deeper cleaning each night using guidelines provided by [helicopter manufacturers](#) and health organizations.

Additionally, HAI COVID Clean organizations pledge to wear masks and other appropriate personal protective equipment when working with the public, and to maintain cleanliness standards in publicly accessible areas of their facilities.

The HAI COVID Clean Pledge reads:

As a helicopter operator, we affirm that our highest priority is the safety of our customers, our crew, and the public. We are committed to ensuring that our passengers are protected in every possible manner. Therefore, we pledge to:

- Meet or exceed any applicable federal, state, or municipal regulation introduced to prevent the transmission of infectious diseases
- Disinfect our aircraft, according to manufacturer recommendations, between every flight
- Conduct a deeper cleaning of our aircraft every night, according to manufacturer recommendations, or as often as necessary
- Continuously clean or disinfect our waiting area, our counters, our restrooms, and any other publicly accessible area of our facility
- Require our flight and ground crews to use masks as long as recommended by the US Centers for Disease Control and Prevention (CDC) and/or the World Health Organization (WHO)
- Avoid transporting anyone who is visibly ill during our check-in process
- Recommend the use of masks to our passengers, making these personal protective equipment (PPE) items available to those who need them.
